

学号	姓名	提交时间	总分	成绩
20225102010203	何子兴	2024-03-23 16:40:13	5	3

1. 【简答题】

得分：3/5

- 1、整理这周得笔记
- 2、整理这周得代码

学生答案：

```
1 package java_8322;
2
3 import java.util.Scanner;
4
5 public class qiantao {
6     public static void main(String[] args) {
7         Scanner scanner = new Scanner(System.in);
8         System.out.println("请输入成绩");
9         int java = scanner.nextInt();
10        if (java > 90) {
11            System.out.println();
12            System.out.println("");
13            System.out.println("大卷的成绩");
14            int java1 = scanner.nextInt();
15            if (java >= 98) {
16                System.out.println("满分");
17            }
18            if (java < 98 && java >= 95) {
19                System.out.println("高分");
20            }
21            if (java > 90 && java < 95) {
22                System.out.println("优秀");
23            }
24            if (java < 90) {
25                System.out.println("及格");
26            }
27            else {
28                System.out.println("");
29            }
30        }
31    }
32 }
```

```
1 package java_8323;
2
3 import java.util.Scanner;
4
5 public class ass {
6     public static void main(String[] args) {
7         int i=0;
