1. 【简答题】实现下图效果：

得分：94/100

学生答案：<!DOCTYPE html>  
<html>  
<head>  
<meta charset="UTF-8">  
<title></title>  
<style>  
    .search\_box{  
        width: 546px;  
        height: 32px;  
        border: 2px solid #e2231a;  
    }  
    .search\_inp{  
        width: 425px;  
        height: 26px;  
        border: 0;  
        /\* 输入框获取焦点时,边框没有效果\*/  
        outline: none;  
        background-color: #0000FF;  
        padding:2px 24px 2px 17px;  
    }  
    .xj{  
        display: inline-block;  
        width: 19px;  
        height: 32px;  
        background-color:coral  
        background-image:url(../img/xiangji.png) ;  
        background-size: 15px 15px;  
        background-repeat: no-repeat;  
        background-position: 0 9px;  
    }  
    .fdj{  
        display: inline-block;  
        width: 21px;  
        height: 21px;  
        background-color: #0000FF;  
        background-image: url(../img/fdj.png);  
        background-size:21px 21px;  
        background-repeat: no-repeat;  
        background-position: 0 9px;  
    }  
    }  
</style>  
</head>  
<body>  
  
    <div class="search\_box">  
        <input type="text" class="search\_inp" />  
        <i class="xj"></i>  
        <button>  
            <i class="fdj"></i>  
        </button>  
  
    </div>  
</body>  
</html>

参考答案：略
