1. 【简答题】Vue跑马灯

得分：100/100

学生答案：

The student's solution consists of two parts: a code editor and a browser preview.

Code Editor (Top): Shows a Vue component with the following code:

```

<script>
export default {
  data () {
    return {
      imgList: [
        {id:1,vieww:'../static/1.jpg'},
        {id:2,vieww:'../static/2.jpg'},
        {id:3,vieww:'../static/3.jpg'},
        {id:4,vieww:'../static/4.jpg'},
        // {id:5,vieww:'../static/Mac_2.jpg'},
        // {id:6,vieww:'../static/Mac_3.jpg'}
      ],
      imgList1: [
        {id:1,viewwrequire:'@assets/1.jpg'},
        {id:2,viewwrequire:'@assets/2.jpg'},
        {id:3,viewwrequire:'@assets/3.jpg'},
        {id:4,viewwrequire:'@assets/4.jpg'},
        // {id:5,viewwrequire:'@assets/Mac_2.jpg'},
        // {id:6,viewwrequire:'@assets/Mac_3.jpg'}
      ],
      imgList2: [
        {id:1,viewwrequire:'../assets/1.jpg'},
        {id:2,viewwrequire:'../assets/2.jpg'},
        {id:3,viewwrequire:'../assets/3.jpg'},
        // {id:5,viewwrequire:'../assets/Mac_2.jpg'},
        // {id:6,viewwrequire:'../assets/Mac_3.jpg'}
      ]
    }
  }
}
</script>

```

Code Editor (Bottom): Shows the template and script sections:

```

<template>
<el-carousel interval="4000" type="card" height="200px">
  <el-carousel-item v-for="item in imgList" :key="item.id">
    
  </el-carousel-item>
</el-carousel>
</template>
<script>
export default {
  data () {
    return {
      imgList: [
        {id:1,vieww:'../static/1.jpg'},
        {id:2,vieww:'../static/2.jpg'}
      ]
    }
  }
}
</script>

```

Browser Preview (Right): Shows a web application with a navigation menu containing '导航一', '用户信息', '登录选择器', and '导航二'. Below the menu is a carousel displaying three images of a person sitting on a bench.

参考答案：Vue跑马灯
