1. 【简答题】

得分：100/100

完成星的功能

学生答案：

The student's answer consists of two parts, each showing code and a browser preview:

Part 1: Infinite Scroll

```

<template>
  <div class="infinite-list-wrapper" style="overflow:auto">
    <div class="list">
      <infinite-scroll>
        <infinite-scroll>
          <div v-for="i in count" class="list-item">{{ i }}</div>
        </infinite-scroll>
      </infinite-scroll>
    </div>
  </div>
</template>
<script>
  export default {
    data () {
      return {
        count: 10,
        loading: false
      }
    },
    computed: {
      noMore () {

```

The browser preview shows a list of items with numbers 10 through 14, and a "没有更多了" (No more) message at the bottom.

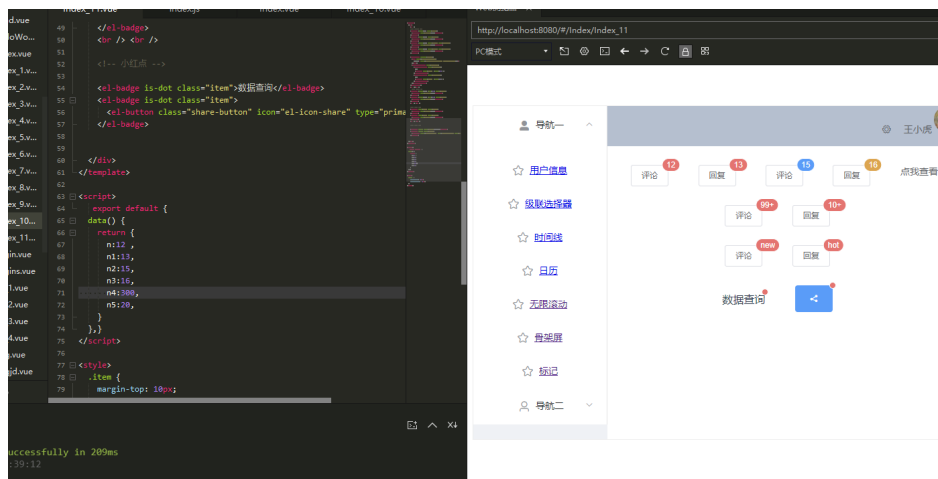

Part 2: User Profile

```

Index_11.vue
<template>
  </template>
</script>
export default {
  data() {
    return {
      loading: true,
      currentDate: '2021-06-01',
      lists: [],
    },
  },
  mounted() {
    this.loading = false
    this.lists = [
      {
        imgUrl: 'https://fuss10.elemecdn.com/a/3f/3302e58f9a181d2589f3d',
        name: '鹿',
      },
      {
        imgUrl: 'https://fuss10.elemecdn.com/1/34/19aa9801fc2781c4fa3',
        name: '马',
      },
      {
        imgUrl: 'https://fuss10.elemecdn.com/0/6f/e35ff375812e6b00280b',
        name: '山羊',
      },
    ],
  },
}

```

The browser preview shows a user profile page with a "点我重新加载" (Click to reload) button, a list of items, and a large image of a deer. Below the image, it shows the date "2021-06-01" and the name "鹿" (Deer), along with a "操作按钮" (Action button).
