1. 【简答题】 Vue跑马灯

得分 : 100/100

学生答案 :

```
<!DOCTYPE html> <html lang="en"> <head> <meta charset="UTF-8"> <meta name="viewport" content="width=device-wid
h, initial-scale=1.0"> <style> #carousel { width: 100%; overflow: hidden; } #image-container { display: flex; transition: transform
1s ease-in-out; } .carousel-image { width: 100%; height: auto; } button { margin-top: 10px; } </style> </head> <body> <div id="
carousel"> <div id="image-container"></div> </div> <button onclick="prevSlide()">Previous</button> <button
onclick="nextSlide()">Next</button> <script> const images = [ 'image1.jpg', 'image2.jpg', 'image3.jpg', // Add more image UR
Ls as needed ]; let currentIndex = 0; const imageContainer = document.getElementById('image-container'); function showSlide(i
ndex) { const offset = -index * 100; imageContainer.style.transform = `translateX(${offset}%)`; } function prevSlide() { currentInde
x = (currentIndex - 1 + images.length) % images.length; showSlide(currentIndex); } function nextSlide() { currentIndex = (currentI
ndex + 1) % images.length; showSlide(currentIndex); } // Initial setup images.forEach((imageUrl) => { const imageElement = doc
ument.createElement('img'); imageElement.src = imageUrl; imageElement.classList.add('carousel-image');
imageContainer.appendChild(imageElement); }); showSlide(currentIndex); // Automatic sliding, uncomment the line below if you
want auto slide // setInterval(() => nextSlide(), 3000); </script> </body> </html>
```

参考答案 : Vue跑马灯
