

学号	姓名	提交时间	总分	成绩
20224502010633	崔文俊	2024-01-05 11:20:28	100	91

1. 【简答题】实现下图功能：

得分：91/100

点击切换按钮，可以切换样式

学生答案 : <script type="text/javascript">

```
var vm = new Vue({
  el: '#app', // 选择器: id 样式、元素选择器等 但元素选择器不能绑定fyz html元素
  data: {
    username: "",
    password: "",
    unameWarn: "",
    pwdWarn: "",
    sex: "",
    sexWarn: "",
    hobby: [],
    hWarn: "",
    jiguan: "",
    jWarn: "",
    introduce: "",
    inWarn: ""
  },
  methods: {
    login: function() {
      console.log("用户名 : ", this.username)
      console.log("密码 : ", this.password)

      // 清空警告提示。作用: 先显示警告提示了, 然后填写正确, 此时应该清空警告提示
      this.unameWarn = ""
      this.pwdWarn = ""
      this.sexWarn = ""
      this.jWarn = ""

      var check = true // true表示校验通过, false表示校验失败
      if (this.username == "") {
        this.unameWarn = "用户名不能为空"
        check = false
      }
      if (this.password == "") {
        this.pwdWarn = "密码不能为空"
        check = false
      }
      if (this.sex == "") {
        this.sexWarn = "请选择性别!"
        check = false
      }
      if (this.hobby.length == 0) {
        this.hWarn = "请选择爱好!"
        check = false
      }
      if (this.jiguan == "") {
        this.jWarn = "请选择籍贯!"
        check = false
      }
      if (this.introduce == "") {
        this.inWarn = "请填写简介!"
        check = false
      }
      if (!check) {
        return
      }
      console.log("模拟提交")
    }
  }
});
</script>
```

参考答案 : 略
